

KARTIK MESHRA M

COMPUTER ENGINEERING STUDENT

kartikmeshram50886@gmail.com

8 7 6 6 8 6 8 4 9 5

Gondia , Maharashtra

[://github.com](https://github.com)

Ambitious and detail-oriented computer engineering diploma student with a strong foundation in python, and software engineering principles. Passionate about Artificial Intelligence, Machine Learning and Data Science Proven ability to build data-driven application, clean datasets using Pandas, and manage source code using GitHub. Eager to leverage technical skills in a challenging software development environment

Core Competencies

- **Programming & Libraries:** Python, NumPy, Pandas, Matplotlib, Scikit-learn(Basics)
- **Tools & Developer Skills:** VS code , Git , GitHub
- **Core Concepts:** Operating system, Software Engineering
- **Web Development Tools:** HTML, CSS , Javascript

PROJECTS

Project Name: Data Analytics and Visualization

Tech Stack: Python,Pandas,NumPy, Matplotlib,GitHub

July 2026

- Developed a Python-based data manipulation script Pandas and NumPy to clean and process unstructured textual and spreadsheet data.
- Implemented error handling mechanisms and debugged environmental dependencies for Scikit-learn in VS Code
- Managed source code efficiently by initializing repositories and deploying the full project onto Github using Git

Python Data Analysis & Visualization

Personal Project : Git / GitHub

July 2026

- Processed and analyzed structured datasets using Pandas and NumPy to clean missing values and filter analytical records.
- Created clear data visualization like line plots and bar charts using Matplotlib to identify and showcase data trends

Education

Diploma in Computer Engineering

Private Polytechnic Institute: Gurukul Polytechnic Nagra, Gondia

MSBTE Board, Maharashtra
